REPUBLICAN STATE TICKET.

FOR CONGRESSMAN-AT-LARGE,
GALUMBA A. GROW,
OF Shenandoah.
SAMUEL A. DAVENPORT,
OF Erie.

Prof. J. W. Cooper made an honorable fight for the county superintendency, and his defeat is no reflection upon his ability as a public instructor. It was due to circumstances over which he had no control, and which are well known by the initiated.

On Thursday next the murderer Holmes will pay the penalty of his numerous crimes, and as far as can be learned has reached the conclusion that there will be no escape from his threatened doom. He is said to be giving his whole attention to spiritual matters and the arrangement of his temporal affairs. He has had a will drawn, disposing of a sum approximating \$4,000. The opinion is current that unless a change for the better shall take place within the next three days there will be danger of real instead of feigned insanity.

This week will mark another important event in the anti-convention canvass for the Republican presidential nomination. The Indiana convention will be held at Indianapolis, the one city of all the land that stood unmoved when, in the May of 1892, the magic of the name of Blaine was sweeping, apparently with irresistible force, across the continent. The convention this week will be an important one, for the reason that, following the custom of twelve years standing, General Harrison will be invited to address the assembled delegates. If the General accepts the invitation and a stampede for him is begun, it is conceded that nothing but his own most relentless opposition could stop it. This is why the friends of McKinley are apparently so anxious about the outcome.

ELECTRICITY as motive power has revolutionized the business interests of the country within the past several years. In Schuylkill county many business establishments have discarded the steam engine and adopted the electric motor, being cleaner, more economical and always ready for use at a moment's notice. Many Shenandoah business men would use the same power were the facilities at hand. The Shamokin-Mt. Carmel electric railway company proposes to give the residents of the latter town electric motive power this summer, and will furnish the same at the rate of \$45 per horse-power per year. The trolley companies running to this town, or the electric light company, might inaugurate a similar movement here, with profit to themselves and great convenience to the business portion of the town.

The address of Mr. Clarence F. Huth on the subject of immigration, at the anniversary exercises of Washington Camp No. 112, P. O. S. of A., last evening, was a timely and well-considered statement of a subject which is now receiving the earnest attention of statesmen and thinkers and struck a responsive chord in the breasts of his audience. That it is high time something was done to prevent European countries exporting their criminal and depraved subjects upon our shores is generally admitted, and Mr. Huth's lucid and forceful presentation of the case, a brief synopsis of which is published to-day, brought the matter home to many in such a light that will make them think seriously. It has become a very serious subject, and while the order he represents does not aim to proscribe anyone who is able to appreciate the liberty vouchsafed under our laws and who is willing to aid in keeping our country up to the high standard raised by its founders, every good citizen, whether native born or naturalized, will aim to his efforts to have such laws passed as will keep out the paupers and criminals who have come to us in droves and are filling our courts with murder cases.

The anti-McKinleyites have pulled themselves together and to-night there is everywhere heard their declaration not only that they will not surrender, but that the Ohioan will not get the nomination at St. Louis. They repudiate the notion that the Illinois convention was in any measure conclusive, and have closed their ranks again for a struggle that will not have its ending until the final roll call in the Mount City in June next. They have rejected the coy invitation extended them to join with Mr. Hanna, who would graciously forgive their waywardness if they would now co-operate to have the nomination made unanimous. They have replied that some Ohioan will have cast upon him the duty as a good party man of moving to make the nomination of some Republican other than McKinley unanimous. And thus stand the great political leaders, as widely apart in their convictions as to the result as it is possible for men to be. An important conference of the anti-McKinley leaders was held in Washington on Sunday, at which were present Senators Quay and Allison, two of the candidates; ex-State Senator Andrews, of Pennsylvania; General Clarkson and Samuel Fessenden. The two latter are members of the National Committee. In an interview after the conference Senator Quay is quoted as saying, in answer to the question whether McKinley would be nominated on the first ballot, as follows: "Not much. He will not win on the first ballot, or any other ballot. Not much." Thus it appears there is no surrender and Mr. Mark Hanna will continue to "lubricate" the McKinley machine.

HOLMES AWAITING HIS DOOM.

It Is Not Believed the Condemned Man Will Attempt Suicide.

PHILADELPHIA, May 5.—H. H. Holmes, the convicted murderer, has now less than two days to live, as Sheriff Clement says the execution will occur about 10 o'clock Thursday morning. The sheriff asserts that there will be no sensational scene on the gallows. If Holmes has anything to say it must be said from his cell, before the march to the scaffold. About fifty persons, including officials and newspaper men, will witness the hanging, although thousands are straining every nerve to be present, and as high as \$300 has been offered for a single ticket.

The prophecy that Holmes would cheat the gallows by committing suicide has no promise of fulfillment. Strict watch is kept upon him, but he seems docile and resigned. Whether or not his apparent contrition is genuine, and whether he will die a convert to the Roman Catholic faith, is largely a matter of conjecture. Father Dailey, his spiritual adviser, believes the contrition is genuine. The priest visits Holmes every day, and will administer the last rites of the Catholic church shortly before the hanging. On Thursday morning mass will also be said for him in the Church of the Annunciation.

The scaffold is ready, but will not be erected until Thursday morning. It will be placed in the center of the corridor on which the condemned man's cell faces, and, as usual, will be heavily draped in black.

Thompson, of Camden, as candidates.

The animal will probably be killed.

IN SENATE AND HOUSE.

The River and Harbor Bill Sidetracked by Peffer's Bond Resolution.

WASHINGTON, May 5.—The outlined program for the senate procedure this week was shattered early in yesterday's session by two unexpected motions. When the intended action to consider the river and harbor bill was attempted it was antagonized by a motion to consider the Dupont election case, which was carried. Later Dupont matter until the river and harbor bill was passed, the final vote in the election case to be taken two days after consideration was begun. At 2 o'clock the unfinished business came up in the form of the bond investment resolution. Mr. Peffer refused to further delay the matter, and his motion to proceed with the resolution was upheld by a vote of 39 to 28, thus displacing the river and harbor appropriation bill. Mr. Hill thereupon took the floor and spoke until adjournment.

The first skirmish over the senate amendment to the naval appropriation bill reducing the number of battleships provided for in that bill from four to two occurred in the house yesterday, when Mr. Boutelle, chairman of the naval committee, moved to non-concur in all the senate amendments and request a conference of the senate. Mr. Boutelle under took to chastise some of the senators for their inconsistency. He referred to the war scares of the past winter and the bellicose resolutions introduced in the senate, and then sarcastically contrasted the vast talk of some of the senators with their votes to reduce the number of battleships provided for in the bill. Mr. Quigg, of New York, called Mr. Boutelle to order for criticizing members of the upper house and was sustained by the chair after some very lively sparring. Subsequently Mr. Sumner, of Texas, moved to concur in the senate amendment reducing the number of battleships, but by consent the motion went over for action until today.

KILLED WIFE, CHILD AND SELF.

A Family Wiped Out Only Sixteen Days After Marriage.

CANAAN, Conn., May 5.—Edwin Plant, a resident of Clayton, Mass., just over the state line, yesterday shot and instantly killed his wife, Ada, and then fired a bullet into the breast of his 3-year-old child, killing the infant. Plant then ran from the house.

The authorities were notified and a posse was organized. Plant was traced through the lots to the swamps near the Karkaput river, nearly a mile distant from the scene of his crime, where he was discovered hiding in the long grass of the swamp. He was ordered to come out and surrender, but refused, and threatened to shoot the first to advance. A circle was formed about him by the posse, and as it closed in upon him Plant cried out: "The first man who advances another step will be shot."

By this time the crowd was wild with rage, and threats of lynching were heard. The deputy sheriff in charge of the posse offered Plant protection if he would surrender, but all overtures were disregarded. For four hours the posse remained in its position, being meantime strongly reinforced. Then Plant was summoned to give himself up, but his only reply was a revolver shot. Then began a fusillade of shots. Plant concealed himself in the tall grass, lying prostrate in the midst of bogs, which afforded him protection from the flying bullets.

For fifteen minutes the shooting continued. Plant had then but one bullet left, and realizing that escape was impossible he placed the revolver to his head, pulled the trigger and fell back dead.

On April 16 last Plant married Ada Sanford. On the day of the marriage a child was born to the couple. The infant has caused Plant no little mortification, and it is supposed that he murdered his wife and child in a fit of anger.

Milwaukee's Tieup Complete.

MILWAUKEE, May 5.—The street railway strike assumed a more serious aspect last night. Every car barn in the city was surrounded by a large crowd, which stoned the buildings, and in some places drove off the police who had been detailed to guard the barns. The mobs were made up of strike sympathizers. Strikers themselves took no part in the demonstrations. At all of the barns mobs numbering from 3,000 to 5,000 were gathered. At each the non-union men who took the strikers' places were assaulted. This morning all the electricians in the city, about 300, walked out. They were followed by all the men employed in the repair shops of the street railway, about a hundred in all. The tieup this morning is complete.

Victorious Harvard Freshmen.

CAMBRIDGE, Mass., May 5.—The annual Harvard class races on the Charles river last evening resulted in one of the biggest surprises in years. The freshmen eight, for the second time in the annals of Harvard aquatic, won quite handsly, rowing with a high stroke and excellent watermanship. The senior crew, with its six ex-varsity oarsmen, was the prime favorite. The freshmen were not over-expected to finish third. They beat the record by ten seconds. With the freshmen an easy winner, it was a pretty finish between the other three crews. The sophomores were just a length behind the seniors, and the junior shell was overlapping the sophomore boat.

On Strike Against a New Time System.

NEWPORT NEWS, Va., May 5.—About a thousand men stopped work and demanded their salary at the shipyard of the Newport News Shipbuilding and Dry Dock company yesterday. This action on the part of the employees was brought about by the new time system. This system is called the clock system, and each man has a key and registers his own time. The men claim that much time is lost in the morning and at dinner hour on account of having to wait in turn to register. If no agreement is reached about 2,500 men will probably walk out.

So Mr. Gilman Brown, of 34 Mill St., South Gardner, Mass., was told by the doctors. His son had lung trouble, following Typhoid Malaria, and he spent three hundred and seventy-five dollars with doctors, who finally gave him up, saying: "Your boy won't live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. The vessel struck with tremendous force, and it was found that her bottom was badly shattered, and several of her water compartments rapidly filled with water. She remained intact saved her from sinking. She remained fast on the rocks for about thirty minutes, when the rising tide floated her off.
